

## INDOOR /OUTDOOR WALL MOUNTED FDB-6A

### Description

THE FDB-6A is a wall mounted box with PC+ ABS material especially for feeder cables to connect with drop cable.

The product material cable entry adopt the waterproof connector ensures IP65 grade good waterproof performance. It provides good protection , splicing, splitting , distribution and management for the FTTX network services.

### Features

- Waterproof IP65 grade can be applied in outdoor environment
- Anti aging, dust proof, wall mounted with installation kits available
- Adapter slots adopted without screw required to fixing adapters
- Clamping for feeder cable and drop cable, realized fiber splicing, storage, distribution in one
- Accessories are optional to meet flexible requirement
- New material ensure good appearance , strong body and tensile for the reopen

### Application

- Widely used in FTTH access network.
- FTTD (Fiber to desk) interfaces
- CATV Networks
- Local Area Networks

## Technical Parameters

Item	Parameter
IP grade	IP 65
Installation Way	Indoor/outdoor wall mounted
Max Cable Diameter	Max Input 5mm, max output 2x3mm
Cable Entry	Waterproof Connector
Insertion loss	≤0.2dB (1310nm & 1550nm)
Curvature Radius	≥15mm
Port output	6 SC simplex, Duplex LC 6pcs
Size	172*126*40mm
Weight	0.54kg
Gross Weight	11.9kg/40pcs 425x330x 570mm
Optional Accessories	adapter, pigtail
Using temperature	-40°C~+75°C
Air Pressure	62kPa-101kPa
