

Horizontal Splitter Splice Closure FOSC8C

The horizontal splitter splice closure FOSC8C is IP68 waterproof grade for FTTH network. It can accommodate fiber optic splitter, fiber adapter, pigtail to realize fiber splicing, storage, distribution, splitting with solid protection.

Features

- PP material, IP68 waterproof, anti aging
- Premium Gel sealing for waterproof and easy installation and maintenance
- No re-entry tools required , advanced structure design
- Aerial, buried, wall mounted, pipeline, handhole installation
- Special material for ring to be repeatedly opened, re-usage
- Valve and grounding devices can be installed

Technical Parameters

Item	Parameter
Model	IP 68
Installation Way	Outdoor Aerial or wall mounted, pole mounted, handhole
Fiber Core	8C
Material	PP+GEL
Weight	2.5~2.7KG
PLC splitter	1PCS 1*8
Adapter Number	8pcs SC simplex
Size	396*200*126mm
Cable port and diameter	6 , $\phi 13 \times 2$, $\phi 16 \times 2$, $\phi 20 \times 2$
Max Capacity	Bunchy 96, ribbon 144c

Main Components

No	components	Quantity	Usage	Remarks
1	Housing(bottom)	1 set	Protecting fiber cable splices in whole	Internal diameter:330*120*110(mm)
2	Housing(cover)	1 set	Protecting fiber cable splices in whole	Internal diameter:330*120*110(mm)
3	Insert plate	2 pairs	Fixing the housing	175*56*30(mm)
4	Fiber optic splice tray(FOST)	Max 6 trays (bunchy) or 4 trays (ribbon)	Fixing heat shrinkable protective sleeve and holding fibers	Suitable for: Bunchy: 12,24(cores) Ribbon: 3 (pieces)
5	Foundation	1 set	Fixing reinforced core of fiber cable and fiber optic splice tray(FOST)	
6	Seal fitting	1 set	Sealing between FDB cover and FDB bottom	
7	Port plug	6 pieces	Sealing empty ports	
8	Fixed bolt	1 sets	Fixing the housing	

Main accessories and special tools

9	Heat shrinkable protective sleeve		Protecting fiber splices	Configuration as per capacity
10	Nylon tie		Fixing fiber with protective coat	Configuration as per capacity
11	Insulation tape	1 roll	Enlarging diameter of fiber cable for easy fixing	
12	Seal tape	1 roll	Enlarging diameter of fiber cable which fits in with seal fitting	Configuration as per specification
13	Hanging hook	1 set	For aerial use	
14	Earthing wire	1 piece	Putting through between earthing device	
15	Abrasive cloth	1 piece	Grind the fiber	
16	Labeling paper	1 piece	Labeling fiber	
17	M8 Special wrench	1 piece	Fixing bolts of housing and insert plate	
18	M10 Special wrench	1 piece	tightening nut of reinforced core	
19	Instruction manual	1 piece	standard installation
