

## Horizontal Fiber Splice Closure FOSC4809

Horizontal fiber splice closure FOSC4809 is designed with both butt-joint, branching and splitting and wiring function. It has max 48 fiber capacity and suitable for main bunchy optical cable and different diameter drop cables.

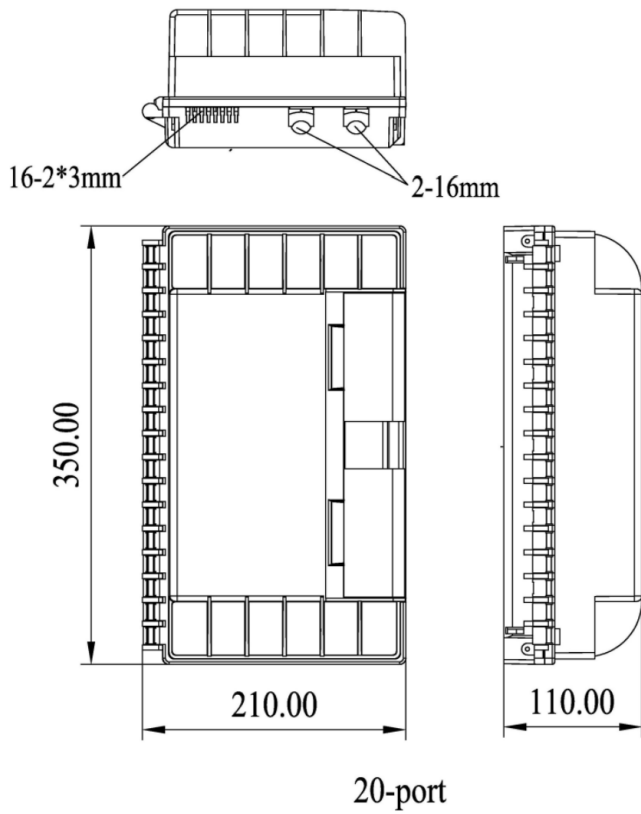

### Features

- Adopts horizontal mechanical sealing and advanced internal structure design
- Can install 2pcs 1x8 or 1pcs 1x16 splitter
- 16 pcs 2x3mm drop cable both ends in and out
- Good sealing performance after re-entry and reuse
- The splice closure has enough space for winding and storing fibers
- Easy open and closure with little tool
- It can be aerial, wall mounted for FTTH optical fiber distribution

### Technical Parameters

Item	Parameter
Model	FOSC4809
Installation Way	Outdoor Aerial or wall mounted
Cable port	Four 8~16mm ports, and 16pcs for 2*3mm cable
Max Capacity	48 fiber,
Splice Tray	2pcs 24fiber
Splitter Tray	1pcs 1x16 blockless PLC
No. of Adaptor port	16pcs
Size	350*210*110mm
