

## Polyester PET EXPANDABLE BRAIDED SLEEVEING MESH TUBE

### Description

Expandable PET braided sleeving is made from halogen free and flame retardant polyester, it is providing economical and good , durability protection for the cable and connector from abrasion and cut through. The braided construction and wide expandability allows quick and easy installation.

### Features

- Woven with environmental protection PET material, has good wear resistance, expandability, smoothness, flame retardancy and air permeability, heat dissipation performance.
- Uniform appearance, excellent softness, easy to bend, tighten, lead operation, good flexibility, elasticity
- Easy to Install, good protection and management for the cables
- Good Versality and various size optional to cater various cable diameter
- Different colors are available
- Resistant to gasoline engine chemicals and cleaning solvents

### Physical Property:

Material	PET, NYLON
Temperature	-50~+150 degree
Fire Resistance	VW-1
Melting Point:	230+/-5°C
Water absorption	≤0.51%
Shrinkage rate	≥48±5%

## Size Parameters

Size	Spindle	Extendable Size	Suitable for cable size	Package
mm		mm	mm	m/roll
2	16	2-6	2-4	500
3	16	3-6	2-4	500
4	24	4-8	3-7	500
6	32	6-12	5-10	500
8	40	7-15	8-13	500
10	48	9-20	9-6	500
12	56	12-24	12-18	200
14	48	12-16	14-20	200
16	56	16-30	15-22	200
18	64	18-38	18-25	100
20	64	18-38	18-25	100
22	72	20-42	20-30	100
25	72	20-42	20-30	100
30	96	30-55	30-40	100
35	96	30-55	30-40	100
38	120	40-70	40-55	100
40	120	40-70	40-55	100
50	120	45-80	45-65	100
60	120	55-90	55-75	50
70	120	70-120	70-90	50
80	120	80-130	80-100	50
90	120	90-150	90-110	50
100	120	100-170	100-130	50
